Renowned for high quality standards and reliability, Komatsu meets the huge demand placed on machines by the waste management industry with a wide range of options and modifications available. This provides the flexibility to adapt the Komatsu wheel loader range to the specific requirements of different waste handling applications and jobsite conditions. Whether you choose the full waste specification or individual components, you're guaranteed increased machine performance, availability, and efficiency.

## Standard Inclusions

### Bucket cylinder guards

Protects the bucket cylinder rod from falling debris.

### Cooling Screens

Increases effective open area for airflow while reducing amount of debris reaching the coolers.

### Front Window Guard

Provides an additional layer of protection to the window and operator from large debris.

### Underbelly Guarding

Reduces debris build-up and shields power train and hydraulic components. Protects the engine oil pan, oil drain and fuel tank drain while reducing amount of debris pulled into rear frame.

### OEM Light Guards

Guards and protects front and rear lights from impact damage.

## Optional Inclusions

### Solid Tyres

Designed to perform in tough recycling and waste management applications reducing down time and improving productivity.

### Rubber Articulation Guards

Protects components in the rear frame from debris and allows for full access to all daily maintenance points.

### Axle Seal Guards

Adjustable to ensure fit and reduces debris build up around shaft and seals.

### Lift Cylinder Guards

protect the lifting cylinder hydraulic hoses. amount of debris pulled into rear frame.

### Steel Wheel Arches

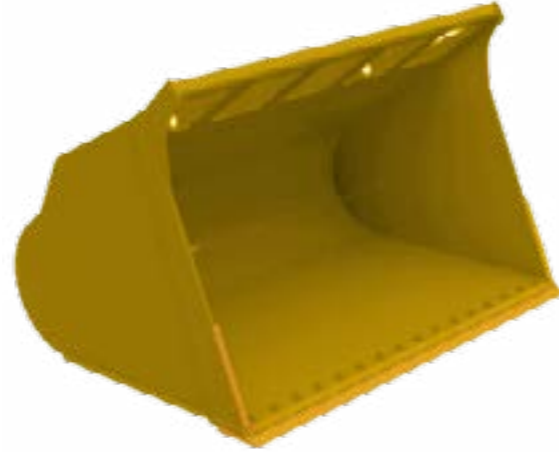

Replacement of OEM wheel arches with a more heavy-duty option to provide additional protection to the upper-machine structure.

### Removal of Wheel Arches

For applications where too much build-up of material occurs, removal of wheel arches may be a more suitable option.

GP bucket

Light material bucket

4 in 1 bucket

Woodchip bucket

High dump bucket

**Other attachment options**

- Coupler
- Forks
- Fixed and Extendable Jibs
- Grab Bucket
- Dozer blade
- Sweep Out Bucket
- Side Dump Bucket
