WHY BUY GENUINE

- Components engineered, heat treated and manufactured to the highest standards
- Greater hardness depth than aftermarket alternatives, resulting in longer lasting components
- Lower operating costs, through longer lasting components, less down time & fewer change outs
- Back up and support of an OEM with a branch network located across Australia and New Zealand

For sales, pricing and parts contact your nearest Undercarriage Specialist today.

TOTAL UNDERCARRIAGE SUPPORT

Free Inspections

To ensure maximum uptime of your Undercarriage, Komatsu offers complimentary scheduled inspections to help extend the life of your Excavator, Dozer or any machine with an Undercarriage system.

Our 30-minute comprehensive inspections includes assessment of bush thickness, link height, shoe height and roller shell thickness, which can save unexpected downtime, emergency costs and lost opportunity. Book in your FREE undercarriage inspection today and find out how Komatsu can improve the life of your tracks*.

*Undercarriage inspections must be scheduled with your local Komatsu branch and are subject to availability.

Undercarriage Management Systems

We're committed to delivering quality Undercarriage parts, service and support Australia-wide. With a strong branch network across Australia, New Zealand and New Caledonia, we'll deliver to ensure your Undercarriage performance is never compromised.
