

Would you like to complete your Trade Apprenticeship with the Komatsu Training Academy?

AUR31216	Certificate III in Mobile Plant Technology
AUR30316	Certificate III in Automotive - Electrical technology
MEM30305	Certificate III in Engineering - Fabrication Trade
RII30815	Certificate III in Civil Construction Plant Operations

Duration:

The nominal duration to complete this competency-based apprenticeship is 4 years full time. KTA's flexible training model considers the learner's skills and knowledge acquired through previous training and experience. This may lead to a reduction in the time required to complete your apprenticeship.

Delivery

There are a range of methods used for our training and assessment which include written and oral questions / answers, and demonstration and observation of practical tasks in your workplace or at one of KTA's training workshops.

Entry Requirements

You must be employed in a training contract by an appropriate organisation to study an apprenticeship.

An apprenticeship involves full time work with an employer who provides an opportunity to learn all aspects of a trade.

This is a structured program for a fixed period and while you learn on the job, you also attend off the job training at one of Komatsu Training Academy's locations.

Some of the benefits of an Apprenticeship are that you can:

- » Earn a wage while you train
- » Learn on the job skills combined with off the job training
- » Receive a nationally recognised qualification on successful completion
- » Start a valuable step towards a rewarding career path.

Fee Information

In most cases the State Government meets the cost of training. This means that neither the employer nor the apprentice pays for the training component of the Apprenticeship. However, apprentices may be required to pay a minimal Government contribution fee determined on an individual basis prior to enrolment. Please contact Komatsu Training Academy for further information.

An employer of an apprentice may be eligible for Commonwealth incentives. For further information contact Australian Apprenticeship Pathways on 1800 338 022 or go to their website www.aapathways.com.au

How to Apply and Enrol
